

Backlink Booster's Boosting Tools

Backlink Booster (www.BacklinkBooster.com) includes the following tools to make it as easy as possible for you to successfully boost your backlinks:

Currently Available

- **LinkFinder.** Use Majestic SEO's massive link database for free to automatically find backlinks that are pointing to your website so you can import them into your account for boosting.
- **LinkChecker.** Checks the page you are boosting to ensure the page can be loaded successfully and a backlink to one of your websites resides on the page.
- **LinkSpinner.** Automatically pulls the title and description of the page on which your backlink resides to generate unique and relevant titles (anchor text) and descriptions used for boosting your backlink.
- **LinkFlow.** Allows you to set how the rate at which your backlinks will be boosted each day for each site in your account. This enables you to smooth out your boosting efforts so they appear natural to search engines and social networking websites.
- **XTRA RSS Boosting.** Enables you to submit the customized RSS feeds Backlink Booster creates for your account to as many RSS Directories as you want for even more boosting power.
- **XTRA Web2.0 Boosting.** Enables you to post your backlinks to as many Web2.0 accounts as you want for even more boosting power.
- **Link Manager.** Enables you to modify, delete, prioritize, export, and re-boost your backlinks.
- **Auto ReBoost.** Automatically re-boots your backlinks every month to maximize the number that are indexed by the search engines. Re-boosting also continuously increases the amount of link juice each backlink sends to your site.
- **Manual ReBoost.** You can select the specific backlinks you want to have re-boosted to maximize the number that are indexed by the search engines.
- **Link File Importing.** Enables you to upload a file of backlinks that point to your website so you can boost them all with one click of a button.

- **RSS Feed Importing.** Enables you to specify an RSS feed that contains links to your site and Backlink Booster will automatically parse the feed every day and import new links into your account for boosting.
- **Copy-n-Paste Importing.** Enables you to import your backlinks for boosting by copying and pasting them into a form.
- **Link Exporting.** Enables you to export a file of the backlinks you have boosted using Backlink Booster so you can then import them into other SEO tools to further promote your website.
- **Results Tracker.** Tracks your boosting activity, including the number of backlinks you boost and how frequently you boost them. Also shows the “Boosting Power” for each backlink when you boost them.

Coming Soon!

- **API Importing.** Enables you to import backlinks from virtually any source so they are automatically imported into your account every day. (*Expected release: Q4, 2012*)
- **IndexChecker.** Automatically checks the status of each backlink you boost to see if it has been indexed by the search engines. (*Expected release: Q4, 2012*)
 - **NOTE:** IndexChecker will work with Auto ReBoost to automatically re-boost backlinks until they are indexed, and also to re-boost any backlinks that are de-indexed.
